

Preface	5
Public Good Differential Game with Composite Distribution of Random Time Horizon	7
<i>Tatyana Balas, Anna Tur</i>	
Coordinating Buyback Contract in Supply Chains with Limited Funding	20
<i>Irina Berezinets, Irina Song, Nikolay Zenkevich</i>	
Symmetric Nash Equilibrium Arrivals to Queuing System	53
<i>Julia V. Chirkova</i>	
Analysis and Control of Macroeconomic Trends Based on the Leontief Model	61
<i>Zhao Guo, Dan Wang</i>	
Dynamic Cournot Oligopoly Models of the State Promotion of Innovative Electronic Courses in Universities	74
<i>Vassily Yu. Kalachev, Guennady A. Ougolnitsky, Anatoly B. Usov</i>	
Weighted Graph Vertices Ranking Using Absolute Potentials of Electric Circuit Nodes	87
<i>Vitalia A. Khitraya</i>	
Dependent Retailers' Demand in Game Theoretic Model of Supply Chain	99
<i>Suriya Sh. Kumacheva, Victor V. Zakharov</i>	
Modified SEIQHRDP and Machine Learning Prediction for the Epidemics	110
<i>Li Yike, Elena Gubar</i>	
Cooperative Solutions in Multi-Star Network Games	132
<i>Tian Lu, Jianpeng Zhang</i>	
Collaborative Working Capital Optimization for Combined Supply Network	145
<i>Daniil V. Lukinskii, Nikolay A. Zenkevich</i>	

Generalized Integral Equations for Timing Games	182
<i>Mikhail M. Lutsenko</i>	
Stability of Complete and Star Multiplex Networks	192
<i>Ziyu Ma, Elena Parilina</i>	
Cooperative Solutions for Working Capital Cost Management	199
<i>Vladislav Novikov, Andrey Zyatchin</i>	
Learning of Supply Chain Cost-Revenue Sharing Contract in the Form of Trade-off Mechanism in Pollution Control Problem	229
<i>Shimai Su</i>	
A Sustainability Measurement Framework of Supply Chain Information Flow: The Case of Industry 4.0 Technology Implementation .	237
<i>Anna Todorova, Andrey Zyatchin</i>	
Cooperative Stock Market Game	271
<i>Jianpeng Zhang, Tian Lu</i>	
Cooperative Solutions for Network Games with Quadratic Utilities	282
<i>Chen Yan</i>	
Cooperative Differential Games with Pairwise Interactions in Pollution Control Problems	295
<i>He Yang</i>
